

## **Beautiful Deck Appearance**

- No screw or nail heads
- Reduces the possibility of splinters
- No fastener head on the surfaces to catch with a bare foot or snow removal

## **Longer Lasting**

- Stainless steel fastener for longer performance
- Eliminates "nail pops"
- Reduces wood splitting
- Reduces cupping of wood

## **For Use With**

- Any thickness (1", 5/4" or 2") of deck board
- Hard or soft wood and composites
- Ideal with cedar and redwood where stainless steel fasteners are recommended
