

Portable and Pre-Wired 110V LED Floodlights

A range of pre-wired, 110V, LED floodlights rated at 30W, 50W and 70W. The standard floodlights are supplied with a cradle bracket and can be tripod, scaffold or wall mounted. An additional bracket is required for scaffold mounting (see below). The 30W floodlight is available as a Carrylite i.e. mounted on to a handheld stand. The overall assemblies are rated to IP44 and are suitable for indoor or outdoor use. Light outputs are as follows:

30W	-	2700 lumens
50W	-	3750 lumens
70W	-	5250 lumens

The wall / tripod / scaffold mounting floodlights are pre-wired with a 5 metre input lead complete with a 16A 110V plug. The Carrylite is pre-wired with a 2 metre yellow input lead complete with a 16A 110V plug.

For fixed installation only (not tripod mounting), we also supply pre-wired 100W and 150W 110V LED floodlights - see below for part numbers. If higher wattage LED floodlights are to be tripod mounted, please refer to data sheet SLDS033, which details our heavy duty 4m and 5m Portalite tripods, which accept our range of LED floodlights adapted for mast mounting (the LED floodlights are mounted on purpose built cross arms, which are securely clamped to the tripod to provide a robust mounting method, which is required when mounting heavier fittings on higher tripods).

Portable Carrylite - Part Number S060911

Tripod / Wall Mounting - Part Number S060937

LED Floodlight mounted on THCMT Tripod

Part No.	Type	Description
S060911	LCL30/110/2/16	30W LED Carrylite c/w 2 metres cable and a 16A 110V plug
S060937	LED30/110/5/16	30W LED wall / tripod / scaffold mounting c/w 5m cable and a 16A 110V plug
S060986	LED/50/YELL/110/5/16	50W LED wall / tripod / scaffold mounting c/w 5m cable and a 16A 110V plug
S060987	LED/70/YELL/110/5/16	70W LED wall / tripod / scaffold mounting c/w 5m cable and a 16A 110V plug
S210018	THCMT	Tripod, Telescopic, Swing Leg, 2.3m
S200315	THX	Tripod, Telescopic, Fixed Leg, 2m
S060988	LED/100/YELL/110/5/16	Single 100W LED wall / scaffold mounting c/w 5m cable and a 16A 110V plug
S060989	LED/150/YELL/110/5/16	Single 150W LED Wall / Tripod Mounting c/w 5m cable and a 16A 110V plug
S060189	Scaffold Clamp	Half Swivel Scaffold Clamp
S060223	Fixing Kit, M8	To fix S060937 to S060189
S060618	Fixing Kit, M10	To fix S060986 / 987 / 988 or 989 to S060189
